HIGH PERFORMANCE AIR HAMMER "VIBRO-IMPACT" SYSTEM

Suspension

EQ-290 206

WATCH DEMO HERE:

290 210

290 220

290 230

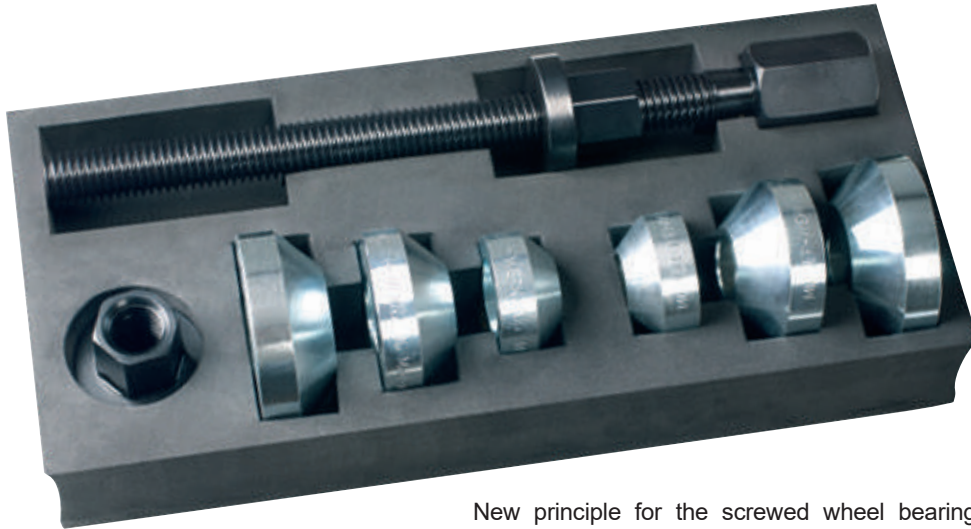

290 241

"VIBRO-IMPACT" System-tool to loosen tight connections. The high performance air hammer helps to disassemble e. g. conical seat connections, wheel bearings, bushes, rusted screw connections.

EQ-290 206 High Performance Air Hammer "VIBRO-IMPACT" System

TWIN-CONE WHEEL BEARING KIT

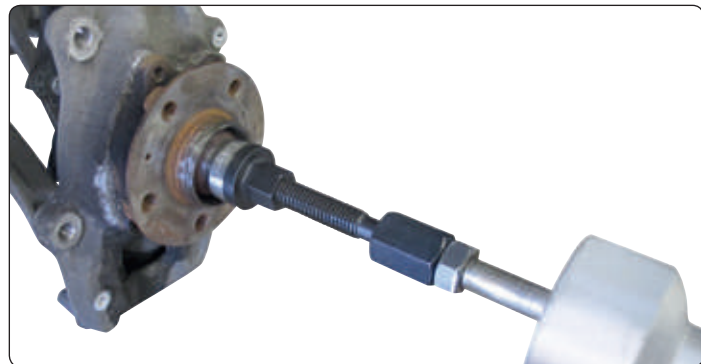

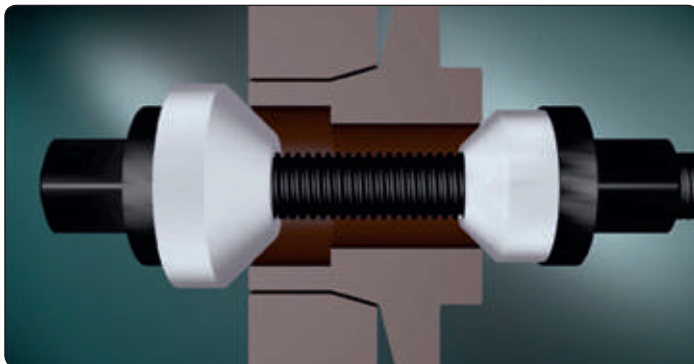

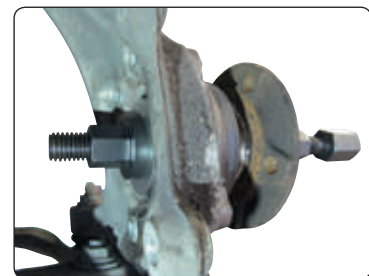

WATCH DEMO HERE:

New principle for the screwed wheel bearings. Fits the majority of other wheel bearings as well. Makes a solid connection, so it is easier to remove when using slide hammer.

432 005 Twin-cone wheel bearing kit

UNI WHEEL BEARING KIT

Suitable for almost all vehicles **with bearing hub units (compact bearings)** as well as, vehicles with **conventional wheel bearings**.

Can assemble or disassemble.

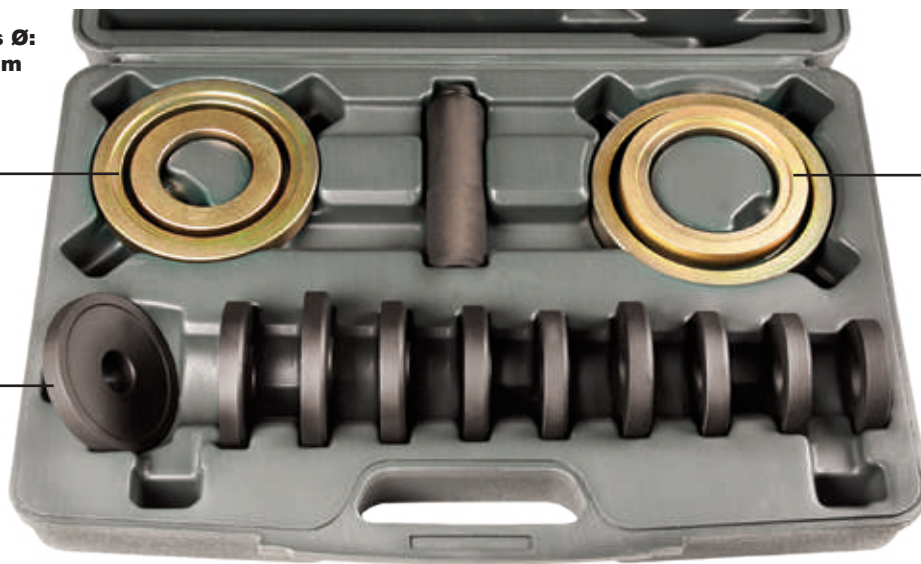

Can also be used for with hydraulic hollow piston cylinders or under the workshop press.

This kit comes in a sturdy case and includes a "Vibro-Impact" spindle. Parts available separately. Made in Germany.

432 030 Uni wheel bearing kit

UNIVERSAL PRESS DISC KIT

Reducing rings Ø:
80, 100, 120 mm

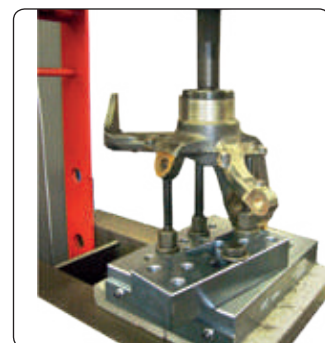

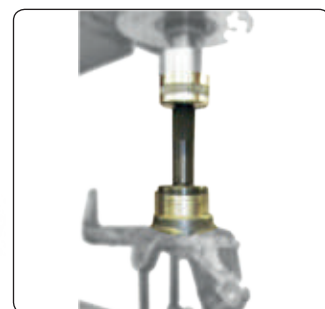

Receiving ring
e.g. for axle stubs Ø:
OD 130 x ID 110 mm

Press discs Ø:
60, 65, 68, 70, 72, 74, 77, 80, 82, 85 mm

Universal tool set for pressing in or out wheel bearings, bushings, shaft seals etc.
Kit consists of 10 press discs, 3 reducing rings, 1 receiving ring, and 1 driver.
Supplied in a quality storage case.

432 600 Universal Press Disc Kit

UNIVERSAL PRESS RING

To be used in conjunction with the Universal Press Plate #432 650. This tool will help you press out wheel bearings by holding the hubs.

A large diameter ring (179 mm) sits across the press plate allowing large hubs to be placed on the ring.

Great alternative to V blocks and having to stack multiple items to create an unstable support for your press.

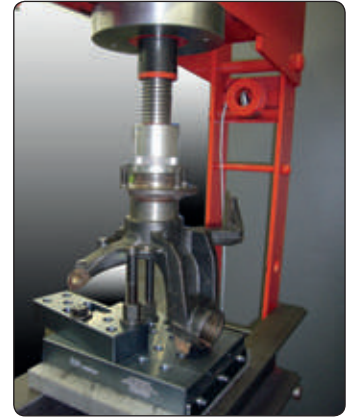

432 711 Universal Press Ring

UNIVERSAL PRESS SUPPORT

WATCH DEMO HERE:

Makes the shop press safe and easy to use.

Creates three points of contact for stability and is infinitely adjustable to fit irregularly shaped objects.

Includes:

- 3 Pressure distribution washers
- 3 High pressure nuts
- 2 Medium high strength studs
- 2 Long high strength studs
- 1 Short high strength stud
- Swivel lock
- Base with innovative numbering system for easy use

432 650 Universal Press Support

SUSPENSION WEAR INDICATOR

Strut Bushing and Bearings

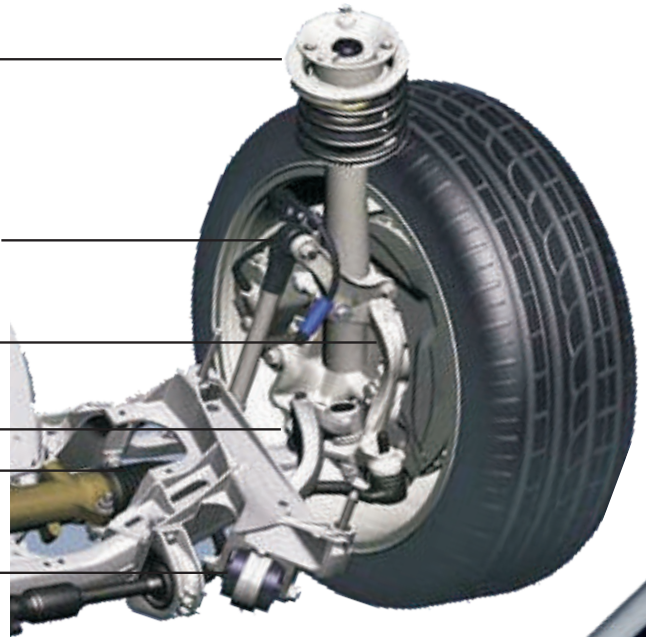

Link Pin Bushings

Wheel Bearing and CV Axle Play

Ball Joints

Tie Rod Ends and Rack Mounts

Torsion Bar Bushings
Control Arm Bushings

This innovative tool effectively helps identify all kinds of worn suspension components

Allows user to positively SEE, FEEL and HEAR problem areas while performing diagnostics.

432 910

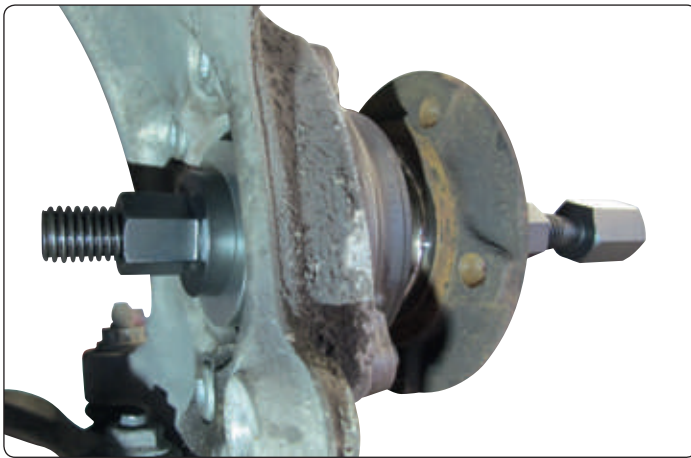

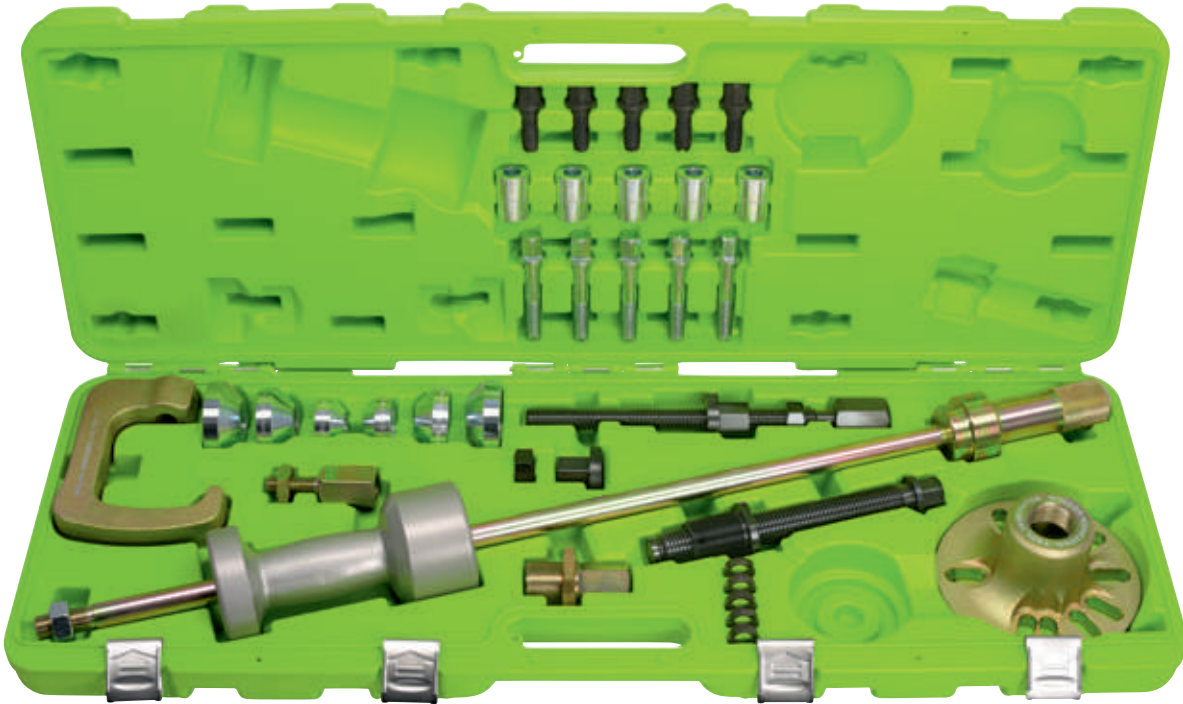

Suspension Wear Indicator

U.S. Patent pending

WATCH DEMO HERE:

SUSPENSION KIT

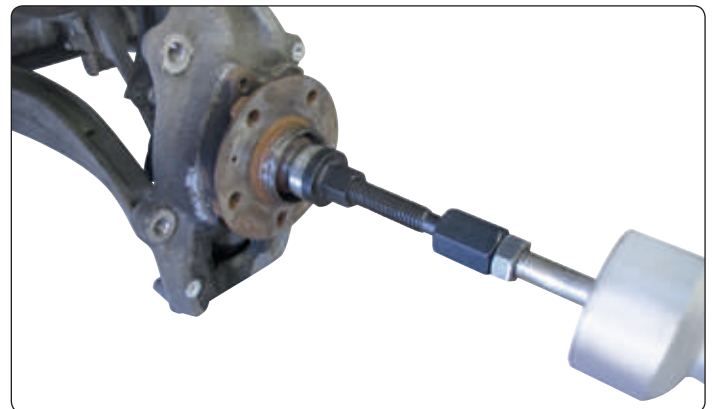

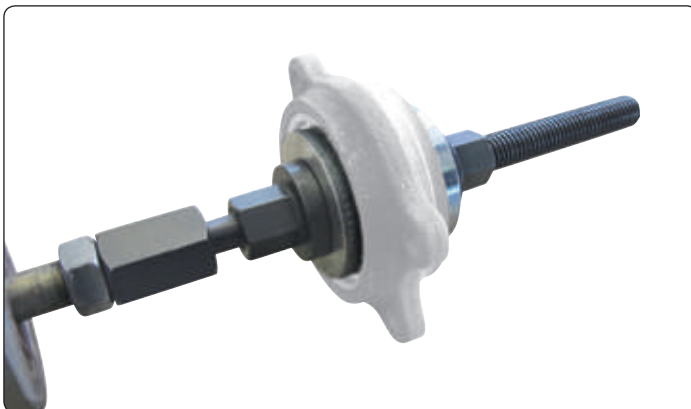

The master suspension kit can help you remove all components of the wheel knuckle. From the wheel bearing assembly, to the drive shaft push out and even lower ball joint/suspension arm removal.

The kit includes:

- XL slide hammer
- Drop forged flange
- Drop forged hook
- Twin cone set with a **"VIBRO-IMPACT"** spindle
- Adaptor to use your existing tools with the XL slide hammer.

All components are neatly stored in our signature neon green carrying case.

433 100 Suspension kit

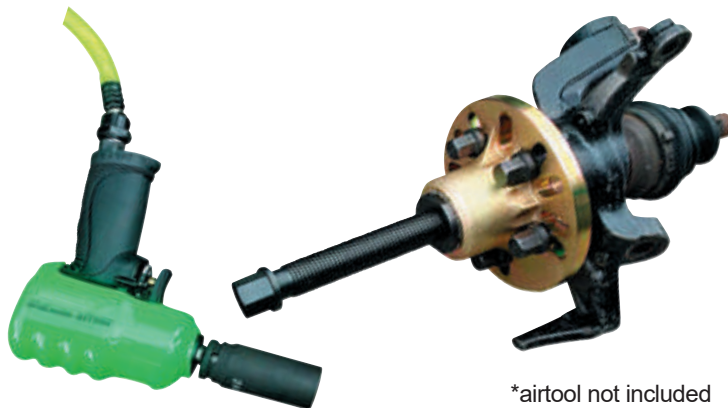

UNI DRIVE SHAFT PUSHER / HUB PULLER

Universal tool for pushing out bonded (microencapsulated) or heavily corroded drive shafts. Damage to the drive shaft thread is prevented. Suitable for almost all 4- and 5-hole wheel hubs with a pitch circle diameter up to 136 mm.

The "VIBRO-IMPACT" principle: the vibration impact of the pneumatic wrench is transmitted to the wheel hub and to the drive shaft through the trapezoidal thread spindle.

When used in conjunction with the slide hammer 433 450, the drop-forged flange can also be used for extracting wheel hubs.

**# 433 414 UNI Drive shaft pusher / Hub puller *
Original "VIBRO-IMPACT"**

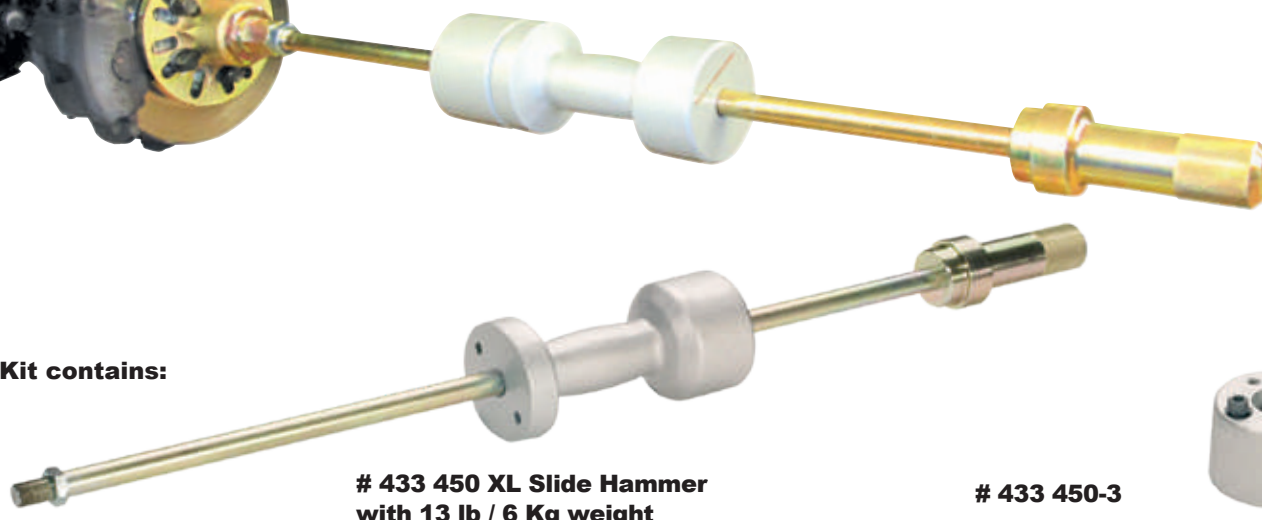

*airtool not included

XL WHEEL HUB SLIDE HAMMER

Kit contains:

**# 433 450 XL Slide Hammer
with 13 lb / 6 Kg weight**

433 450-3

**Optional 6.6 lb / 3 kg add on weight
for additional power.**

**# 433 450/14
Adapter UN 1 1/2"**

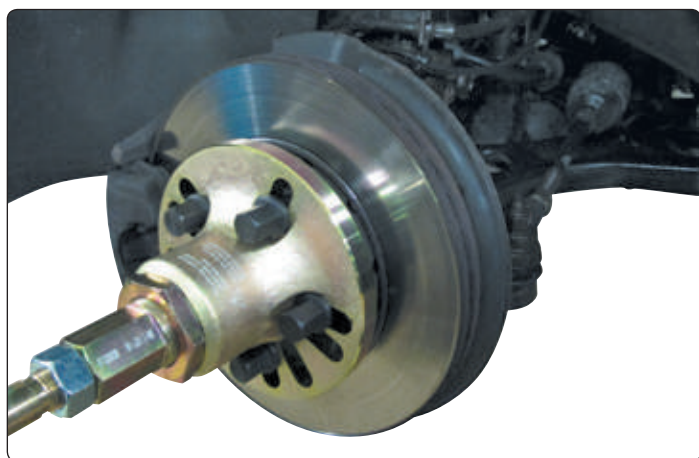

**# 433 433
Wheel Hub Basic Unit**

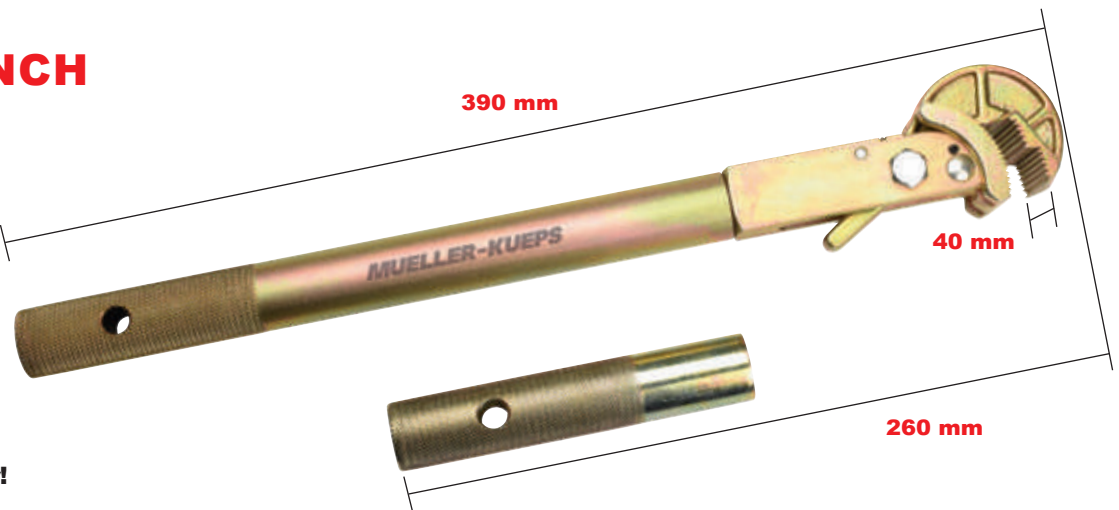

Suitable for 4 and 5 lug applications. Drop forged for exceptional strength.

Provides up to 11 tons of pulling power for quick disassembly of even the toughest jobs.

433 437 XL Wheel Hub Slide Hammer

TIE ROD WRENCH

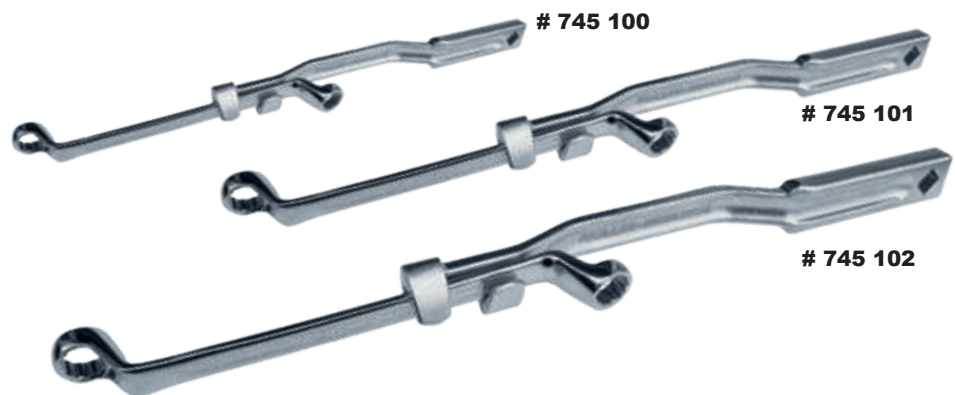

Inner tie rod multi grip plier!

Alignment problems due to rusty and stocked inner tie rod adjustments? This plier has the grip you need on any round or hex surface of the rod. Includes two lengths of levers, one for maximum power and one for narrow spaces.

Grip width: 40 mm
Grip diameter: 14 - 23 mm
Lever length: 260 - 390 mm

512 002 Tie Rod Wrench

UNI-EXTENDER

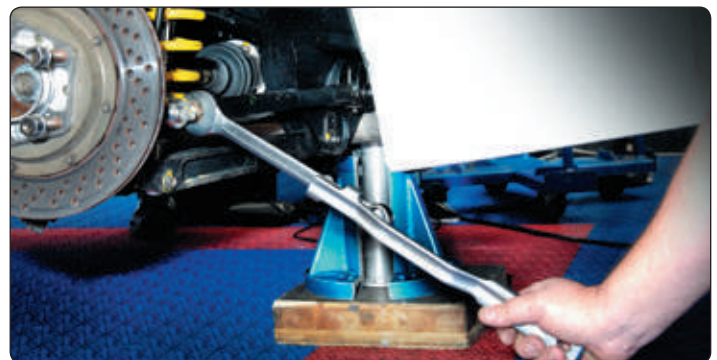

Uni-extender to loosen tight connection in hard to reach areas.

- Fits wrenches perfectly
- To loosen tight connection of hex, TX and XZN
- Reduces risk of injuries.

745 100 **Uni-Extender**
length: 340 mm; max. SW26 / 26 mm

745 101 **Uni-Extender Type 1**
length: 450mm; max. SW32 / 32 mm

745 102 **Uni-Extender Type 2**
length: 580 mm; max. SW46 / 46 mm

PINCH BOLT REMOVAL KIT

603 336-1
Drill-sleeve

603 336-5
HSSE-TICN Special drill

603 336-4
HSSE-TIN
Special drill, 7,3mm

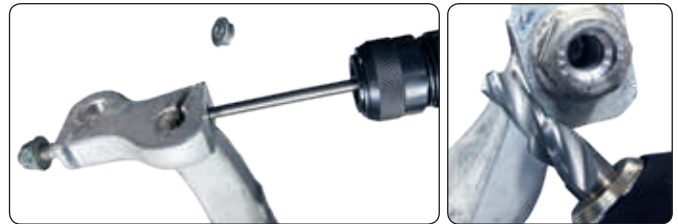

603 334-3
Pin, 9,8x63mm

290 214
Pin punch 6,5mm
for air hammer

For the removal of the aluminum 4-link locking bolt via the exact central drilling method. Remove rusted and corroded bolts easily with this 3-step kit. By pushing the bolt out with the pin, the end of the screw thread cannot be widened. Use with the # 290 206 High Performance Air Hammer for best results.

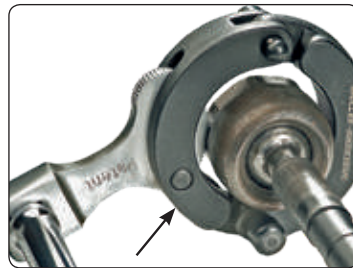

603 336 Pinch Bolt Removal Kit

EXCENTRIC TURN CHUCK

Completely Drop-Forged

Maximum Grip

Opens both ways

1/2" Drive for Maximum Power when used with:

- Extra Long Extension
- Breaker Bar
- Ratchet

PROFESSIONAL DISTRIBUTOR
Most Wanted

Special tool for servicing and adjusting tie rod ends.

Tool opens both ways to allow universal usage for easy tie rod replacement or wheel alignment.

U.S. Patent

WATCH DEMO HERE:

BALL JOINT SEPARATOR KIT

WATCH DEMO HERE:

"VIBRO-IMPACT" spindle

Designed to be used with an Impact tool

Fast and safe removal of suspension and steering system ball joints.

All Forks separately available:

Size	no.
24mm	609 033-24
27mm	609 033-27
31mm	609 033-31

optional:

36mm	609 033-36
------	------------

609 033/5

- The Ball Joint Separator has a very rugged and flat design, with 3 interchangeable forks. These are attached to the center screw to allow continuous adjustment within the jaw capacity range.
- Completely drop forged.
- Jaw capacity range from 30 – 65 mm
- 3 different fork sizes (24, 27 and 31 mm) makes this a very adaptable separator.
- e.g. Audi / VW (A3, A4 and A6 with double wishbone), BMW, Mercedes-Benz.
- Comes with "Vibro-Impact" reaction screw. Making your work quick and safe.
- Will not damage aluminum parts and rubber components.
- Always keep the forks parallel to each other when tool is in use.

609 033 **Ball Joint Separator Kit**

609 033/5 **Ball Joint Separator Kit**
incl. Wall Mount

VIBRO-IMPACT® BELL SHAPE SEPARATOR

609 039
e.g. DB 1424

609 039
e.g. DB Actros 2

609 035
e.g. DB Sprinter / VW LT

Due to the "Vibro-Impact" principle you can now remove suspension joints with your Impact. Reduce the force needed to prevent damage. This drop-forged tool makes removing the suspension fast and easy.

609 035 Bell shape separator 35mm

609 039 Bell shape separator 39mm

Combination tools for dismantling and installing the suspension joints on a VW LT/DB Sprinter directly on the vehicle.

609 147/V2 Pressure piece kit LT/Sprinter

UNIVERSAL RACE PULLER

WATCH DEMO HERE:

The **ONLY** race puller like it on the market.

Universal bearing ring puller with a revolutionary gripping principle. A three-legged gripper with ultra sharp edges provides equal gripping power on each side, avoiding any tilt.

Additionally, the easily adjustable clamping chain offers ideal grip and power for best efficiency.

Fits all kinds of bearings and sleeves between 40 and 60 mm.

- Ships in a sturdy plastic case
- Full firm grip based on the adjustable clamping chain
- Ultra sharp edges will clamp into the 0.5 mm radius of the ring

650 200

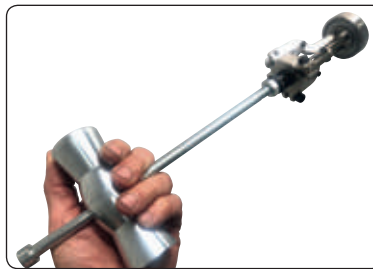

Universal Race Puller

U.S. Patent pending

UNI PULLER SET XS

- Unique set, currently no other like it on the market
- Provides multiple ways to remove bushings, seals, sleeves, bearings, bearing races, pressed-in studs and more.
- Includes a 2.5 LB slide hammer, two sets of jaws, internal and external puller, puller hook, pressed-in stud puller adapter, injector adaptor which fits M14 X 1.5 (most common injector size), and split collet extractors.
- Split collet extractors are made for "blind" holes.
- Slide hammer can be used 2 ways, move the handle horizontally for narrow spaces.
- Kit can be used when there is not a lot of space behind bearings.

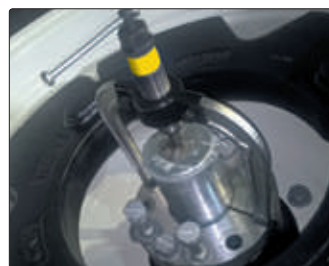

650 500 Uni Puller Set XS

HYDRAULIC TWIN / TRIPLE LEG PULLER SYSTEM

- To be used manually.
- 8ton. ram, self gripping principle
- Combination twin / triple leg puller kit complete with ram extensions, offer a wide range of pulling options.
- Makes 2 different twin / triple leg pullers.
- Supplied in a foam inlay.

650 700 Hydraulic Twin / Triple Leg Puller System

WHEEL WEIGHT REMOVER

Brake & Wheel

Blade-length: 160 mm

Ergonomic tool that has many uses. Can be used for removing sticky wheel weights or trim.

282 230 **Wheel Weight Remover**

WHEEL WEIGHT PLIER

- Specifically made to remove sticky wheel weights from aluminum rims.
- Thin edges grip the wheel weight without damaging the aluminum, leaving no scratches or notches in the metal.
- The pliers will never touch the wheel as the weights lean on their own tape.
- Features a spring-loaded handle.
- Rubber coated grip provides a comfortable handle.
- Wheel weights are fast and easy to remove.

282 240 **Wheel Weight Plier**

INNER RIM CLEANER

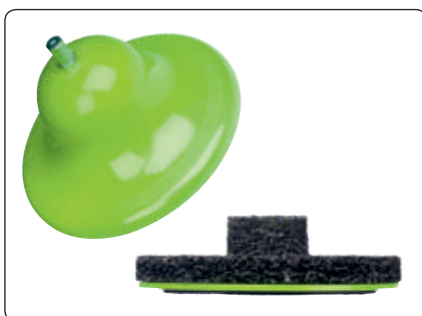

TOOL-INNOVATION 2017

The Mueller Kueps Inner Rim Cleaner is meant for the optimal cleaning of the inner wheel contact surface. It prevents corrosion related distortion of wheel bolt tightening torque and allows you to completely remove burnt in corrosion. To be used only on the inside of an aluminum rim, particularly the inner area prior to wheel balancing. Due to the porous abrasives and a cup shaped grinding plate there is minimal dust and the Velcro adhesive makes it easy to change out. It has been optimized for the latest wheel rims with an enlarged diameter of 75mm.

433 507 Inner Rim Cleaner

433 508 Replacement Discs for Inner Rim Cleaner, 3 pcs.

**Shipment no. 433 507:
1 basic unit + 1 disc**

**to use before
balancing**

WHEEL HUB GRINDER TYPE 1, 1/2" drive, Ø 75mm internal

Special grinder for cleaning the wheel centering device and the attachment face between WHEEL and HUB. Stubborn corrosion residue is removed quickly, easily and completely. Optimized for use with an Impact gun. Actual processing time per hub 3 - 25 seconds. Works best at lowest rpm.

433 500 Wheel hub grinder type 1, 1/2" drive, Ø 75mm internal

433 503 Spare discs, 3 pcs.

Shipment # 433 500: 1 basic unit + 1 disc

WHEEL HUB GRINDER TYPE 1

The Mueller-Kueps Wheel Hub Grinder Type 1 is meant for the optimal cleaning of the wheel and hub contact surfaces.

Burned in corrosion residue is completely removed with a quick and easy process. The porous abrasives and a cup shaped grinding plate reduce dust while a Velcro adhesive makes it easy to change out discs.

Actual processing time per hub is about 3-25 seconds depending on the thickness of corrosion.

This tool has an Outer Diameter of 160mm.

**# 433 502/M Wheel Hub Grinder Type 1
(1 holder + 1 disc) Ø 160 mm**

433 501 Spare Disc for Wheel Hub Grinder 3pcs

WATCH DEMO HERE:

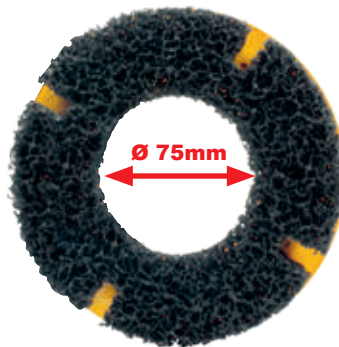

WHEEL HUB GRINDER TYPE 1 - 75 MM INTERNAL

Grinding Ø 160mm

Max. speed 1500 rpm

With larger internal diameter (75mm) for vehicles, e.g. BMW.

Shipment no. 433 504: 1 basic unit + 3 discs

This tool is meant for the optimal cleaning of the wheel centering device and the attachment face between wheel and hub.

Burned in corrosion residue is completely removed with a quick and easy process. The porous abrasives and a cup shaped grinding plate reduce dust while a Velcro adhesive makes it easy to change out discs.

Actual processing time per hub is about 3-25 seconds depending on the thickness of corrosion. This tool has an Outer Diameter of 160mm and an Inner Diameter of 75mm.

Specifically meant for larger internal diameter vehicles such as BMW.

433 504 Wheel hub grinder type 1, 75mm internal

433 505 Spare discs for wheel hub grinder 1, 75mm internal, 3 pcs. Also fits basic unit no. 433 502.

WHEEL HUB GRINDER TYPE 3

The Mueller-Kueps Wheel Hub Grinder Type 3 is meant for the optimal cleaning of the wheel and hub contact surfaces.

Burned in corrosion residue is completely removed with a quick and easy process. The porous abrasives and a cup shaped grinding plate reduce dust while a Velcro adhesive makes it easy to change out discs.

Actual processing time per hub is about 3-25 seconds depending on the thickness of corrosion.

This tool has an Outer Diameter of 200mm.

433 700 Wheel Hub Grinder Type 3 (1 holder + 2 disc) Ø 200 mm

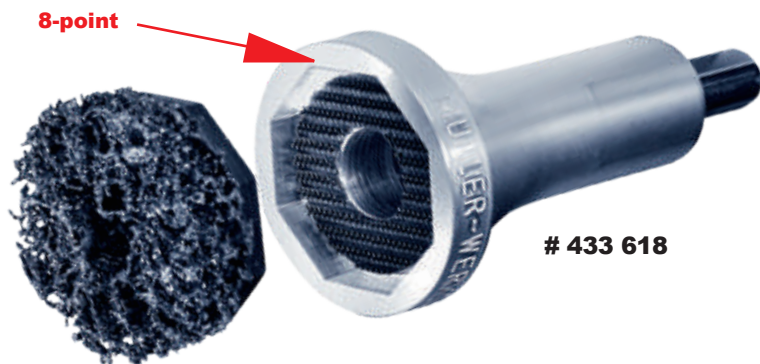

433 720 Spare Disc for Wheel Hub Grinder 2pcs

ALUMINIUM WHEEL HUB GRINDER TYPE 2

Content: 1 basic unit + 5 discs Ø 40 mm and 6 discs Ø 50 mm

This hub grinder is meant for the optimal cleaning of the wheel rim contact surfaces.

Burned in corrosion residue is completely removed with a quick and easy process. The porous abrasives reduce dust while a Velcro adhesive makes it easy to change out discs.

Actual processing time per hub is about 3-25 seconds depending on the thickness of corrosion. It comes with 40mm and 50mm Outer Diameter discs.

433 618 Aluminium-Wheel Hub Grinder Type 2 with 11 discs

433 648 8-point spare disc small 5pcs

433 658 8-point spare disc large 5pcs

433 618/M 8-point-Alu-Wheel Hub Grinder Type 2 with 5 discs

433 918 Aluminium-Wheel Hub Grinder Trucks

433 958 8-point spare disc 5pcs

433 958/PUR 8-point spare disc rough 5pcs

VALVE CORE TOOL

- Insert the Tool into the valve stem.
- Tool will "click" when properly connected to core.
- Upon removal the tool will retain the core.
- Easily and quickly replace the core.
- For one handed operation.

437 001 **Valve Core Tool**
with valve core holder

437 001/4 **Valve Core Tool**
with valve core holder, 4 pcs.

BRAKE HEX BIT KIT

**Length:
45mm**

6mm

7mm

8mm

9mm

11mm

Universal use in narrow spaces. The hard to reach hex bolt of the brake caliper can be easily screwed due to the turnable ratchet wrench. The kit includes 6, 7, 8, 9, 11mm hex bits.

456 550/6 **Brake hex bit kit**

Example of use:
VW / AUDI, rear brake caliper.

LINE WRENCH KIT WITH JOINT

- Completely Drop-Forged
- High Quality Chrome Finish
- Both Ends with Inner Hex
- Stepped Flange Shape

457 705 Line Wrench Kit 5pcs.
8, 9, 10, 11, 12 mm

**Perfect for brake lines,
 power steering lines,
 air conditioning
 lines and hydraulic lines.**

Also separately available:

Line Wrench 13 mm	# 457 713
Line Wrench 14 mm	# 457 714
Line Wrench 15 mm	# 457 715
Line Wrench 16 mm	# 457 716
Line Wrench 17 mm	# 457 717
Line Wrench 18 mm	# 457 718
Line Wrench 19 mm	# 457 719

BRAKE LINE WRENCH 11 MM

Special brake bleeder wrench for the actuation of bleeder screws.
Saves the disassembling and reassembling of the wheels.

458 711 e.g. for VW Golf 5, Audi A3, etc.

458 811 e.g. for VW Passat, Audi A4, etc.

458 711 Brake Line Wrench 11 mm Long

458 811 Brake Line Wrench 11 mm Short

BRAKE CALIPER FILE

460 202

High quality,
ergonomic handle

460 200

Brake Caliper File with scraper on the face end,
for removal of coarse residue.

460 200 Brake Caliper File

**# 460 202 Brake Caliper thin File
for Asian imports**

NEW!

Ergonomic 2 component handle

MINI-RATCHET PIPE CUTTER

This ratchet pipe cutter is an ideal tool for professionally cutting brake pipes. Compact design and ratchet function mean it can be used directly on the vehicle including hard to reach areas. Automatic readjustment function means no need to retighten the cutting wheel during the cutting process. Handle length provides additional leverage.

462 002 Mini-ratchet pipe cutter Ø 4,75mm, 3/16"

BRAKE CALIPER BRUSH KIT

Brass bristles

Steel bristles

To remove burned in brake dust and dirt from brake calipers. Set includes 1 steel brush and 1 brass brush. Application for brass brush: Use on aluminium brake calipers. Application for steel brush: Use on steel brake calipers. Soft brass bristles ensure a proper cleaning. Length: 225mm.

467 000 Brake caliper brush kit

467 001 Brake caliper brush steel

467 002 Brake caliper brush brass

BRAKE PIPE COATING REMOVAL TOOL

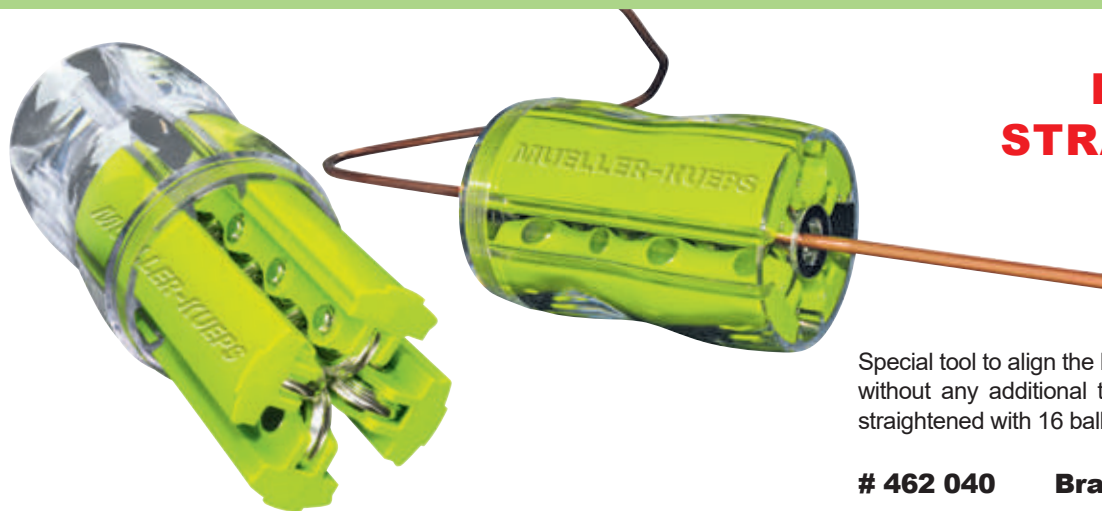

Adjustable for pipe diameters: 3 - 16mm (1/8" - 5/8"). Allows protective nylon coating (seen in particular VAG and GM models) to be removed prior to flaring the brake pipe. Prevents 'bad flares' which occur when brake pipe is flared with coating, this can lead to leakage.

462 004 Brake pipe coating removal tool

Adjustable 3-16mm

BRAKE LINE STRAIGHTENER

Special tool to align the brake tube lines. Easy to use without any additional tools. The brake line will be straightened with 16 ball beared precision rolls.

462 040 Brake line straightener

AIR BRAKE PISTON RESETTER

A universal use brake piston resetter which works for left and right threaded pistons. The kit includes: 2 adjustable discs, foam inlay and a 6-8 bar.

468 026 Air brake piston resetter

Adjustable Brake Piston Reset Discs

Professional reset of the rear axle brake pistons. The exact distance of the rotating disc adapts automatically to the bores of the brake piston by turning the basic unit of the disc.

- Repair almost every car with these two discs!
- Time saver

468 020/47 2-pin Adjustable Disc

468 020/48 3-pin Adjustable Discs

468 020/47
2-pin Adjustable Discs

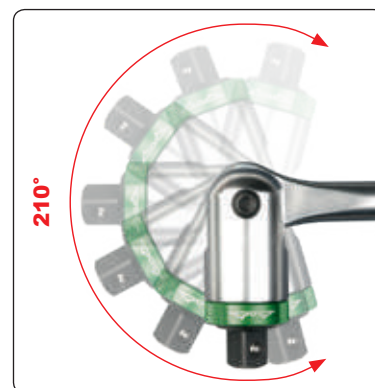

468 020/48
3-pin Adjustable Discs

1/2" x 600mm RATCHET BREAKER BAR

Busts loose stubborn bolts. 210 degree swivel head. Can be used straight as a ratchet for narrow spaces.

512 610 1/2" x 600mm Ratchet breaker bar

TPMS/RDKS TOOL KIT

Needed for mounting and demounting of the valve-type TPMS sensors. These tools ensure that the sensitive TPMS-sensors parts such as the hex-nut or valve core will be tightened with the proper torque, which is required by the TPMS sensor manufacturer.
6pcs T-handle with Nm-Limiter and special sockets kit.
This kit fits nearly all TPMS sensors on the market.

531 049 TPMS/RDKS Tool kit

UNI-EXTENDER

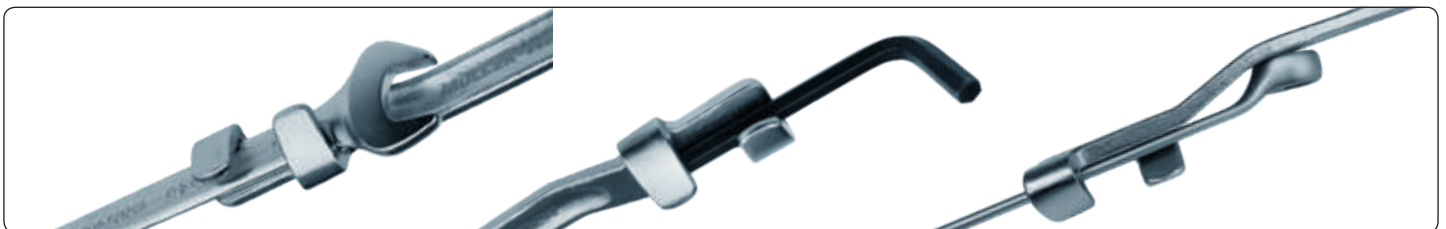

Uni-extender to loosen tight connection in hard to reach areas.

- Fits wrenches perfectly
- To loosen tight connection of hex, TX and XZN
- Reduces risk of injuries.

745 100 Uni-Extender
length: 340 mm; max. SW26 / 26 mm

745 101 Uni-Extender Type 1
length: 450mm; max. SW32 / 32 mm

745 102 Uni-Extender Type 2
length: 580 mm; max. SW46 / 46 mm

XL WHEEL MOUNTING SOCKET KIT

length: 150mm

The individual sizes are colour-coded (yellow, blue, green)

Sizes: 17, 19, 21mm

Extra long and thin walled design

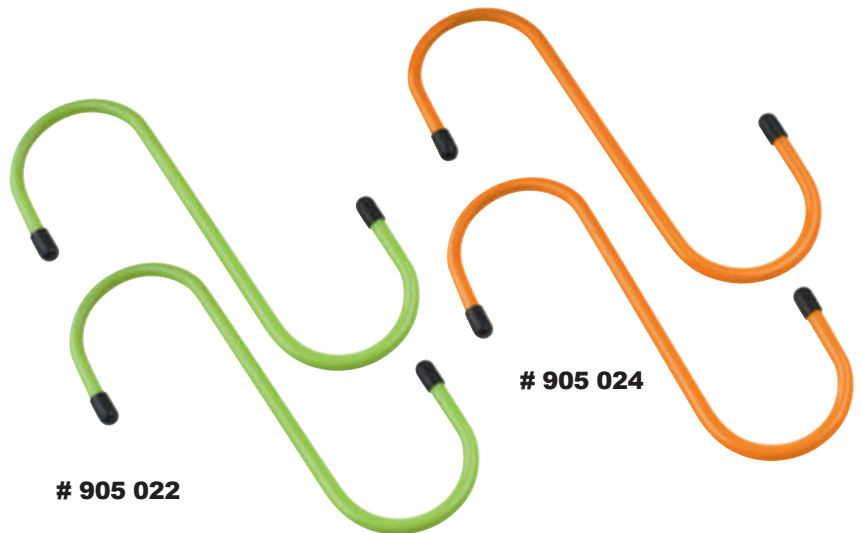

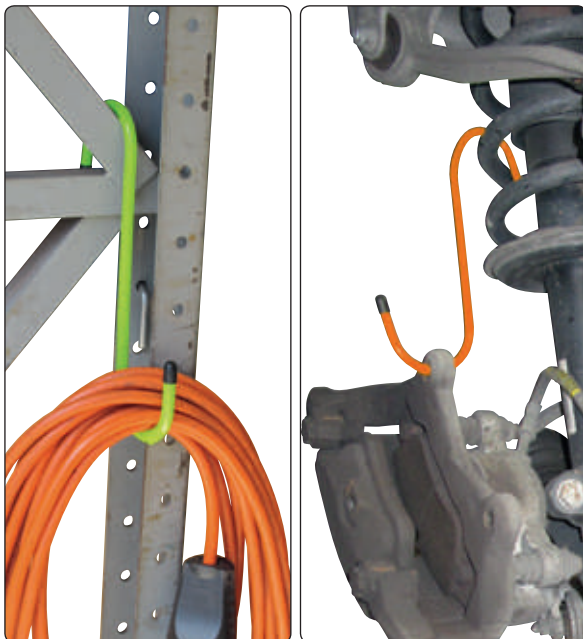

High-quality, extra long, thin-walled single-piece design. Ergonomic design for removal and mounting of wheels in specialist workshops. For use with Torque Wrench! The individual sizes are colour-coded.

800 200 XL wheel mounting socket kit, 3 pcs.

UNI-HOOK-KIT

905 022

905 024

i. e. brake caliper, cords, etc.

905 022

Uni-Hook-Kit

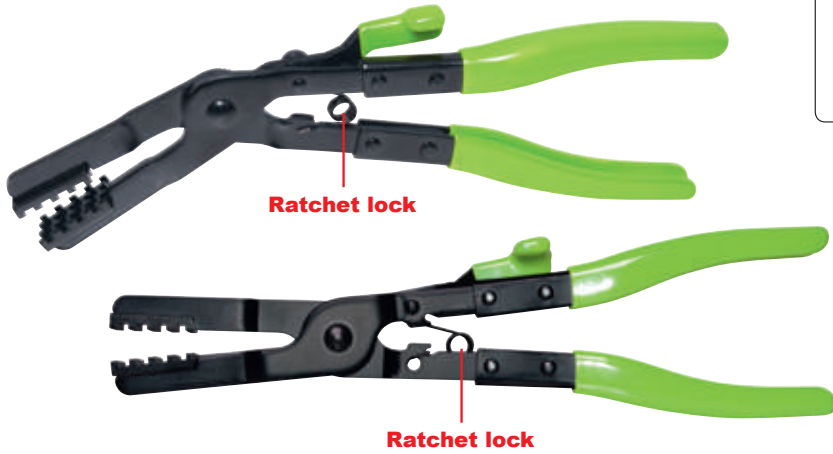

flexible / universally adjustable; for use up to 8 LBS

905 024

Uni-Hook-Kit

rigid; for use from 8 LBS and up

Engine

HOSE CLAMP PLIER KIT

Universal hose clamp plier kit. New head design for multi angle gripping. Ratchet lock holds the hose clamp open. Length 280mm.

500 035 2pcs hose clamp plier kit

UNIVERSAL BELT WRENCH

Universal fit for oil filter and dehydrator cartridges, 1/2" drive, max diam. 180mm / 7". Will not ruin the filter. This tool is advised to be used by Caterpillar.

551 005 Universal Belt Wrench

SPARK AND GLOW PLUG STARTER

Flexible rubber tool.

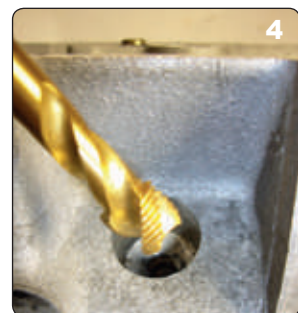

For hard to reach spark- and glowplugs.

Useful tool to install the first pitch of common rail glow plugs. Fits spark plugs as well.

651 001 Spark and Glow Plug Starter

GLOW PLUG DRILL KIT

optional:
600 121
Small slide hammer

Removing broken glow plugs can become a hassle when not done with the right tools. Mueller-Kueps aims to make your life easier by providing you with a kit to remove these broken glow plugs. 5 easy steps make this a safe and effective way to achieve your task.

Included in this kit are sockets, a 3-fluted step drill, 2 sizes of thread tappers, an extractor and a straightforward picture manual.

This set works best when used in conjunction with the Small Slide Hammer # 600 121.

- # 600 240 **Glow Plug Drill kit M10x1**
- # 600 242 **Glow Plug Drill kit M12x1.25**
- # 600 245 **Glow Plug Drill kit M10x1.25**
- # 600 248 **Glow Plug Drill kit M8x1**

SMALL SLIDE HAMMER

The Small Slide Hammer features a 2.5 LB weight and can be used in two ways. Use it with the handle vertically for regular pull. Move the handle horizontally to be able to use the slide hammer in narrow areas while still providing maximum pull. This makes the tool one of the more versatile small slide hammers on the market.

- # 600 121 **Small slide hammer**

UNI INJECTOR PULLER KIT

Universal kit for diesel injectors. Fits Bosch, Delphi, Denso, and Siemens. Will work in most cases without removing the electric plug.

600 130 Uni Injector puller kit

Curved hook centers the impact of the slide hammer. To be used for dismantling injectors.

600 120-1 Injector Puller Adaptor

Clean glow plug hole to prepare for installation of new glow plug. Includes 5 steel wire brushes for the M8 and M10. 3 brushes to clean the glow plug element hole and 2 brushes to clean the shaft.

600 260 5 pcs glow plug brush kit

COMPLETE KIT FOR GLOW PLUGS ELECTRODE EXTRACTION

Set of tools for the extraction of the glow plug tip in the event of breakage or seizure inside the seat, which is otherwise impossible to remove.

Suitable for glow plugs with thread:

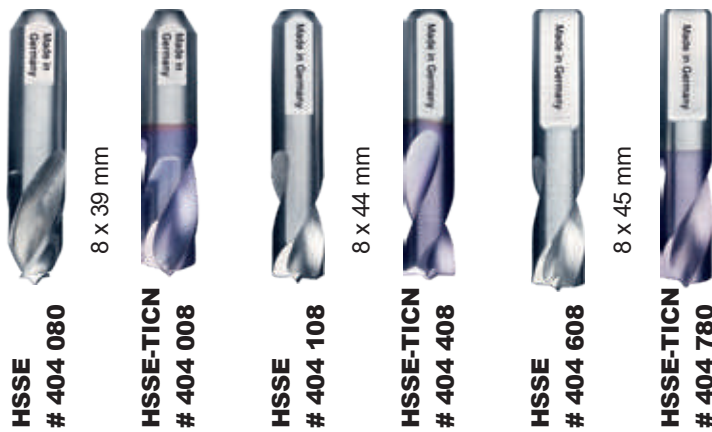

- M10x1
- M10x1.25
- M9x1
- M8x1.

The set includes all the tools needed to safely remove the terminal part of the glow plug electrode without damaging the cylinder head. Our procedure saves you a considerable amount of time versus the alternative of having to disassemble the head.

600 300 Complete kit for glow plugs electrode extraction

SPOT WELDING DRILL BITS

High quality standard HSSE (High Speed Steel Cobalt Alloyed)

Best standard Spotweld Drill available

Double coated > HSSE-TICN (HSSE-Titanium Carbon Nitride)

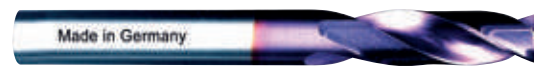

PVD Titanium coating with a Carbon Nitride finish. Highest cutting speed. Used for interrupted cuts and has a long lifetime for best profitability.

Cutting Tools

HSSE
244 060
244 008
244 010

6 x 70 ; 8 x 80 ; 10 x 90 mm

HSSE-TICN
244 806
244 808
244 210

All Drill Bits are:

CARBIDE SPOT WELD DRILL BIT

Made especially for removing spot welds on extremely hard steel materials, such as BTR, BOR.

Use with cordless or air drill. No turning inside drill chuck, due to the 3 flat gripping areas.

222 051

Carbide spot weld drill bit 3-edged 8,0 x 50 mm

222 308

Carbide Spot Weld drill bit 8,0 x 44 mm. Fits the 401 001.

SPOT WELD DRILL

The Tool to use for drilling High Strength Steel!

Operates at 1200rpm or less. Drill bits will last longer.

Use for removing spot welds on all flanges. Comes with removable "G-clamp".

Adjustable depth to ensure there is no drilling in second panel.

To extend the life of the drill bit, use the center punch and the special cutting oil.

401 001

Spot weld drill

5-PACK SPOT WELD DRILL BITS

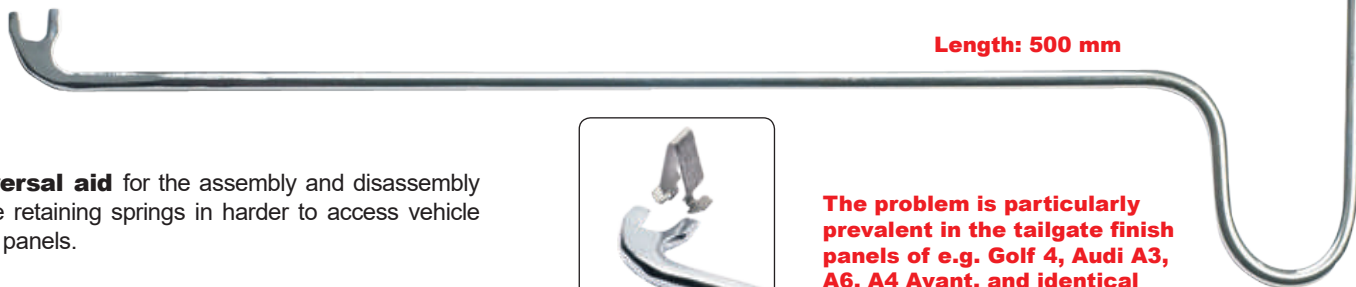

HSSE-Titanium Carbon Nitride!

244 805

5-pack Spot Welding Drill Bits: 2 x 6 mm, 3 x 8 mm

Auto Body / Consumables

FINISH PANEL DETACHEMENT

Length: 500 mm

Universal aid for the assembly and disassembly of the retaining springs in harder to access vehicle finish panels.

267 500 Finish panel detachment

The problem is particularly prevalent in the tailgate finish panels of e.g. Golf 4, Audi A3, A6, A4 Avant, and identical group vehicles.

CARBIDE SCRAPER KIT

MUELLER's gasket; corrosion and carbon scraper

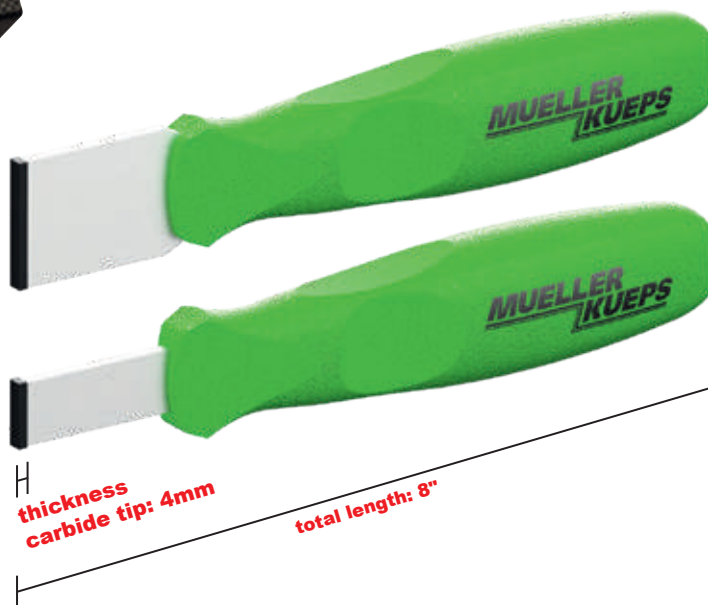

- Double edged blade
- Extremely durable due to high quality carbide inserts
- Works as pull or push tool
- Ergonomic hand grip
- Removes paint and glue in hard to reach areas
- Removes burned in corrosion on brakes
- Carbon on exhaust manifold etc...
